

## REIMBURSEMENT OF LENS FITTING COSTS DIRECT (documentation for construction company employees)

With effect from 1st June 2021, Fund Sanedil will reimburse members directly for expenses incurred when purchasing spectacle frames, provided that they are not for cosmetic purposes, within the limits set out below and until the budget is exhausted.

To receive the benefit, members must submit the completed form to the Fund, attaching the invoice/receipt confirming the purchase, as per the reimbursement request for the purchase of corrective lenses that the Fund has sent to UniSalute.

After verifying the regularity of company contributions, the Cassa Edile/EdilCassa will act as an intermediary for refund requests, which will be paid by the Fund directly to the member making the request.

This benefit has a shared ceiling per family unit and can benefit the member, a spouse who is fiscally dependent as a result of family status, and children who are fiscally dependent.
