

REIMBURSEMENT OF EXPENSES FOR PHYSIOTHERAPY REHABILITATION TREATMENTS
(documentation for employees of construction companies)

As of 1st October 2022, the Sanedil Fund shall directly reimburse the member, within the limits of the ceilings shown below and until the allocated budget is exhausted, for expenses incurred for rehabilitative physiotherapy treatments in the case of pathologies other than those envisaged by the UniSalute Health Plan.

The treatments can be performed in facilities and by private professionals or through the National Health Service (SSN). No deductible or excess will be applied. No more than 12 months may have elapsed between the date of the medical prescription and the date the expense document is issued.

In order to be eligible for the benefit, the member must submit the completed form to the employee of Cassa Edile/EdilCassa, enclosing the medical prescription and the invoice/receipt of expenses issued by medical or paramedical personnel qualified in rehabilitation therapy, the title of which must be stated on the expense document.

The Cassa Edile/EdilCassa, therefore, after verifying the company's contribution regularity, will act as intermediary for reimbursement requests, which will be settled by the Fund directly to the requesting member. This benefit is only available to enrolled workers and therefore the relevant family unit is excluded.
