

**REIMBURSEMENT OF EXPENSES FOR REHABILITATION PHYSIOTHERAPY TREATMENTS
(documentation for employees of Bodies, Associations and Organisations)**

Starting from 1st October 2022, Fondo Sanedil will directly reimburse the member, within the confines of the limits represented below and until the allocated budget is exhausted, the expenses incurred for physiotherapy rehabilitation treatments in the case of diseases other than those provided for in the UniSalute Health Plan.

The treatments can be performed in facilities and by private professionals or through the National Health Service (SSN). Applications for an overdraft or exemption are not accepted. No more than 12 months must have elapsed between the date of the medical prescription and the date of issue of the expense document.

In order to benefit from the service, the member must submit the required relevant completed form to Fondo Sanedil, attaching the medical prescription and the invoice/receipt of expenditure issued by medical or paramedical personnel qualified in rehabilitation therapy, the title of which must be reported in the expense document.

It will therefore be Fondo Sanedil, after verifying the regularity of company contributions, to pay the amount directly to the applicant member. This service can only be used by registered workers and therefore the corresponding household is excluded.

**BUDGET € 2.500.000 UNTIL 30TH SEPTEMBER 2023
CEILINGS FOR MEMBERS ONLY**

PLUS PLAN

ANNUAL CEILING
€ 500

**THE BUDGET AND THE MAXIMUM REFERS TO EXPENSE DOCUMENTS ISSUED
FROM 1ST OCTOBER 2022 TO 30TH SEPTEMBER 2023**

The ceiling may be reached by adding up several requests.
