

## PHYSIOTHERAPEUTIC REHABILITATION TREATMENTS

The Sanedil Fund provides direct reimbursement to the enrollee, up to the maximum amount provided and until the allocated budget is exhausted, for expenses incurred for rehabilitative physiotherapy treatments in the case of diseases other than those covered by the UniSalute Health Plan.

Treatments can be performed in facilities and by private professionals or through the National Health Service (NHS). There is no overdraft or deductible. No more than 12 months must have elapsed between the date of the prescription and the date the expense document is issued.

In order to qualify for the benefit, the enrollee must submit the appropriate completed form to the Fund's office, enclosing the medical prescription and the receipted invoice/relevant slip issued by medical or paramedical personnel licensed in rehabilitation therapy, the title of which must be stated on the expense document.

The Fund, therefore, upon verification of the company's contributory regularity, will act as a conduit for reimbursement requests, which will be settled by the Fund directly to the requesting member.

This benefit is only available to enrolled workers and therefore the nuclear family is excluded.

**BUDGET € 2,500,000 UNTIL DECEMBER 31, 2025**  
**MAXIMUM FOR INDIVIDUAL ENROLLED**

**ANNUAL MAXIMUM**  
**€ 500,00**
